Embryo donation	1000 €	X	X	400 €

\*For accepted deposits, Iscare a.s. as a service provider always issues the appropriate proforma invoice according to the applicable legislation.

## Cancellation policy ISCARE a.s.

Cancellation policy Iscare a.s. apply to situations where an infertile couple interrupts treatment. In this case, if the treatment is interrupted for reasons on the part of the client, Iscare a.s. has the right to reimbursement of all costs related to the services already provided (especially consultation with an IVF doctor or other specialist, consultation with the coordinator, provided examinations, etc.)

Each individual case of treatment interruption by the client is assessed individually with regard to the state of health and other circumstances related to the proposed treatment. In the case of payment for these services, the eligible costs are covered by the received advance payments, unless otherwise agreed upon.

If a problem with egg donor occurs (serious health reasons), then ISCARE a.s. reserves the right to offer a new suitable donor and continue with treatment.

In embryo donation program, if the treated couple interrupts or postpones the treatment for more than 6 months after the embryo reservation, the way to ensure the embryo reservation is to pay the fee for embryo storage for 1 year according to the assisted reproduction pricelist.
