

Ing. Olga Tepla, PhD.

Head of laboratory

Professional education

Czech University of Life Science, Prague	1994
PhD. (Czech University of Life Science, Prague)	2002

Professional experience

ISCARE I.V.F., a.s. - Head of laboratory	since 2007
ISCARE I.V.F., a.s. - Embryologist	2005 - 2007
Pronatal s.r.o. - Head of laboratory	2003 - 2005
ISCARE I.V.F., a.s. - Head of laboratory	1994 - 2003
Institute of animal science	1989 - 1994
Institute of molecular genetics CAV Prag	1984 - 1989

Languages

English	-	fluent
German	-	beginner

Publications

Tepla O., Peknicova J., Koci K. et al.: Evaluation of reproductive potential after intracytoplasmic sperm injection of varied human semen tested by antiacrosomal antibodies.

Fertil Steril. 2006 Jul;86(1):113-20. 2006

The best embryologist study for 2006 (16. Sympozium of AR Brno)

Fulka H., Mrázek M., Tepla O., Fulka J Jr.

DNA methylation pattern in human zygotes and developing embryos.

Reproduction. 2004 Dec;128(6):703-8.

Tepla O., Pěkníková J., Mrazek M. et al.

Successful treatment of azoospermia diagnosed as "Sertoli cells only syndrome with maturation arrest"--developing a quality embryo

Ceska Gynekol. 2003 Nov;68(6):454-7.

Fulka J Jr., Martinez F., Tepla O. et al.

Somatic and embryonic cell nucleus transfer into intact and enucleated immature mouse oocytes.

Hum Reprod. 2002 Aug;17(8):2160-4.

Sutovsky P., Motlík J., Neuber E., Pavlok A. et al

Accumulation of the proteolytic marker peptide ubiquitin in the trophoblast of mammalian blastocysts.
Cloning Stem Cells. 2001;3(3):157-61

Koci K., Trnkova M., Mrazek M., Tepla O. et al

Surgical treatment of male infertility
Ceska Gynekol. 2001 May;66(3):166-70.

Chladek D., Peknicova J., Capkova J. Geussova G., Tepla O., Madar J.

Use of human sperm protein monoclonal antibodies in the diagnosis of sperm pathology and selection of a suitable assisted reproduction method for fertilization]
Ceska Gynekol. 2000 Jan;65(1):28-32.

Tepla O., Mayer Z., Míka J et al

Cryopreservation of embryos after intracytoplasmic sperm injection (ICSI)
Ceska Gynekol. 1998 Jun;63(3):214-7.

Kočí K., Lachman M., Mayer Z., Jarolímková K., Teplá O., Míka J., Nejezchlebová L.

MESA, TESA, TESE + ICSI: results of the first 50 cases
Ceska Gynekol. 1998 Feb;63(1):13-9

Kočí K., Lachman M., Teplá O., Míka J.

The first pregnancy in the Czech Republic achieved with a combination of MESA-ICSI: preliminary report

Grocholová R., Petr J., Marek J., Teplá O

Beneficial influence of Vero cells on in vitro maturation and fertilization of bovine oocytes.
Theriogenology. 1995 Jul 15;44(2):199-207.

Petr J., Teplá O., Grocholová R., Jílek F.

Inhibition of meiotic maturation in growing pig oocytes by factor(s) from cumulus cells.
Reprod Nutr Dev. 1994;34(2):149-56.

Liehman P., Teplá O., Fulka J.

Vitrification of mouse 8-cell embryos with glycerol as a cryoprotectant.
Folia Biol (Praha). 1990;36(5):240-51.

Landa V., Teplá O.

Construction of aggregation chimaeras from 8-cell mouse embryos stored for several years in liquid nitrogen.
Folia Biol (Praha). 1990;36(3-4):159-64.

Landa V., Teplá O.

Cryopreservation of mouse 8-cell embryos in microdrops.
Folia Biol (Praha). 1990;36(3-4):153-8.
